Gladiolus "Mary Fennell"

Awarded to Jelle Roos for display of Gladioli, August 10, 1918, by the Massachusetts Horticultural Society

Jelle Roos : Milton, Massachusetts
To Gladiolus Lovers: Greeting

GLADIOLI are among the most popular of all garden flowers. Each year the size, color, and beauty of these wonderful flowers are being improved upon by specialists, who some thirty years ago started to intensify the flowers by hybridizing. They are very easy to grow and will do well in almost any ordinary garden soil. If planted in the richest place of your garden and given plenty of sun and moisture, they will, however, repay you with extra-large blooms and gorgeous colors.

I do not attempt to grow all known varieties, but rather specialize on a limited number of choicer kinds, and of these I grow a bulb product of unsurpassed blooming power.

Plant the bulbs about 3 or 6 inches deep and from 3 to 4 inches apart.
To obtain a continuing of blooms during the greatest part of the season, it is advisable to plant at intervals of ten days, from the last week in April until the middle of June.

Some varieties will bloom in seventy-five to eighty days from the date of planting, but most sorts require eighty-five to ninety days. A garden of gladioli is never monotonous. Day by day new beauties unfold, new shades and tints appear, until you begin to think that the whole range of colors has been covered.

In October, when the foliage has turned yellow, dig the bulbs, cut the stems off within an inch of the bulbs, and dry them thoroughly. Then remove the old roots and store the bulbs in a cool, dry place where frost cannot reach them. If these instructions are followed, the bulbs will give you the best results for several years.

I shall be very glad to furnish you with any other information you may require to grow Gladioli successfully. Write me, telling of your difficulties. There is a solution of your problems.

PLEASE NOTE

For the price quoted, I deliver bulbs, transportation free, to all points in the United States. Kindly bear this in mind when comparing my prices with those of other growers.

No orders of less than fifty cents can be accepted. Small orders are filled with as much care as large ones. Special prices will be quoted if 250 bulbs or more of one variety are desired. Planting instructions are enclosed with each order.

PLACE YOUR ORDER EARLY

It is to your advantage and to mine to place your order as soon as possible after receiving this catalog. Please state whether you want the bulbs sent to you at once or at the proper time for planting. All orders received before April 1 will be held until proper time for planting when all danger of freezing in transit has passed, unless immediate shipment is desired; in which case the bulbs will travel at purchaser's risk against frost. You will receive an acknowledgment of order by return mail.
### NAMED GLADIOLI

Six bulbs will be sold at one-half the price of a dozen, twenty-five at one-fourth the price of a hundred.

MIXTURES

A Very Fine Mixture, containing several of the best varieties, accidentally mixed in the handling and growing. 25 cts. per doz., $1.50 per 100.

Exhibition Mixture, consisting of high-grade varieties, selected very carefully with the purpose of securing a well-balanced combination of colors. 45 cts. per doz., $3.00 per 100.

Primulinus Hybrids. An Artistic Mixture, containing the most wonderful colors imaginable. The flowers are very graceful. The stems are slender, but strong and very tall. One bulb will very often produce several flower spikes, thereby prolonging the flowering season considerably. 807 each, 60 cts. per doz., $4.50 per 100.
NEW—THREE VARIETIES—NEW

The following three varieties are offered for the first time, after having been tried out with great success. They are especially good growers and possess all the qualities of prize-winning flowers:

Henry C. Goehl. Flowers large and well opened with broad petals of solid white, slightly flushed pink with deep crimson blotch on lower petals. Good spike with well placed flowers and five to seven open at one time. It is an exceptionally good grower and has been awarded a certificate of merit by the American Gladiolus Society, Boston, Mass., August 12, 1916. $1.00 each, $10.00 per doz.

Dr. Isabelle D. Kerr. Fine salmon, very near a self-color. Large open flowers forming a showy spike. It is bound to become very popular in the near future. $0.75 each, $7.50 per doz.

Mrs. Frederick C. Peters. Beautiful shade of rose-violet or lilac, with crimson blotch on lower petal. Flowers of large size and many open at one time on a strong spike. This is without doubt the finest variety of its color. $0.75 each, $7.50 per doz.
